

## PRESSURE REGULATORS

Medical Sector

MEDICAL  
GASES

### P 300 O<sub>2</sub> Regulator

High pressure regulators. Ready to work up to 300 bar. Accurate flows. Pressure relief valves with high evacuation capacity.

#### APPLICATIONS:

- Oxygen therapy
- Home oxygen therapy
- Complete systems for Ambulances
- Power systems for medical gases distribution

### P 350 O<sub>2</sub> Regulator

Oxygen regulator with manometer 0-400 bar with ball flowmeter (0-15 L/min) and NFL cylinder fitting. Plastic tubing nipple for O<sub>2</sub> tube. Humidifier autoclavable at 121 °C.

#### APPLICATIONS:

- Oxygen therapy
- Home oxygen therapy
- Complete systems for Ambulances
- Power systems for medical gases distribution
